

Date Prepared 05/2001  
Revised 9/2004 P. Watt  
Prepared By Carla McGreevy

**BMP** Automotive #7

**TITLE:** WHEEL WEIGHT RECYCLING

**Regulatory Citation:** 6 NYCRR Part 362

**Applicability:** Used wheel weight recycling.

**Purpose:** Proper handling, storage and recycling of used wheel weights.

**Person or  
Department Responsible:** Automotive Department Chairman (629-7838)

**Schedule:** As needed

**Procedures:** Used wheel weights will be placed in one-gallon pails labeled “**Used Wheel Weights**” located in the Automotive Laboratory. When the containers are full they will be placed in the hazardous waste storage area for storage. At the end of the spring semester, the Automotive Technician will arrange with the Grounds department to transport the wheel weights to the approved metal recycler. Grounds will bring the receipt for the wheel weights to the Automotive Technician, with a copy to the Coordinator of EHS.

**Record keeping:** Automotive Office

**Record  
Location:** Automotive & Physical Plant Office.

**Current vendor:** Freedman’s, Green Island

**Contact:** Automotive Technician (629-7190)  
Coordinator of Environmental, Health and Safety (629-7163)
